

The Paducah Evening Sun.

VOL. XXV NO. 74.

PADUCAH, KY., SATURDAY EVENING, MARCH 27, 1909.

TEN CENTS PER WEEK

BANK CLEARINGS GO UP THIS WEEK WITH OPENINGS

Dressmakers, Tailors and Milliners Enjoy Their Ant-Easter Harvest.

Seed Dealers Report Heavy Purchases for Week.

DETAIL BUSINESS IS BOOMING

Clearings this week . . . \$681,752
Clearings last week . . . \$78,079

With the spring millinery opening in full blast the business of this week shows an increase over that of last week. The large stock of the latest creations in millinery has set the women of the city to talking, and, of course, the pocketbooks were opened to purchase the latest hat, although it might resemble an overturned wastebasket.

Not only the millinery dealers, but practically all of the merchants report an increase in the retail trade, due to the spring stocks being advertised. The department stores have been doing a nice business, as the work of preparing the Easter dresses and garments is on, and nearly every dressmaker in the city is rushed with work. The men are not behind the times, and the clothing stores, with the latest cuts in the suits, have swung their doors wide open, and consequently have enjoyed a good trade. The tailors report a good business with many Easter suits picked out and laid away.

Seed dealers have been doing a rushing business this week. The farmers have begun to prepare the ground for crops. Much corn has been sold and the corn bread supply promises to be good, although the price of wheat and corn is soaring skyward. A good demand is had for every variety of seed.

BISHOP HOSS ABOUT WELL

Will Leave for Home in Nashville Next Week.

Baltimore, Md., March 27.—Bishop E. E. Hoss, of the Methodist Episcopal church, south, who has been confined to the Johns-Hopkins hospital for the past two months, where he underwent an operation for internal trouble, will leave that institution next Monday. Arrangements are now being made for his removal by his son, Dr. Seemiller Hoss. The bishop has almost fully recovered from his illness.

COLORED WATCHMAN HAS OASIS AT HIS CROSSING

The city would be more beautiful if the property owners would follow the example of Berno Moffett, colored who is the watchman in the tower on Tennessee street for the purpose of operating the automatic gates. Although most of the day is spent by Moffett in his tower, watching trains and lowering the gates when there is danger, he has found time to improve the ground around the base of the tower. He has spaded the ground and this morning planted flowers. Around the space he has placed small pieces of stone in an attractive manner. This summer the little garden will be an oasis in the bare railroad yards.

ODD FELLOWS

WILL DECIDE ON WHAT COURSE TO PURSUE.

May Hold General Celebration of Anniversary in This City.

It will be decided tomorrow morning whether the 130th anniversary of the Odd Fellows will be celebrated in Paducah by the three lodges alone, or whether the celebration will be on a more extensive scale and have the Odd Fellows from Cairo, Metropolis, Mound City, Ill., Mayfield and other surrounding towns in attendance. Paducah entertained the lodge last year and this year the meeting was scheduled for Mound City, but owing to a serious fire in the business district the meeting will not be held. There are three lodges in Paducah, Mammam, Ingleside and Mechanicburg, and each lodge has selected three members, who will meet tomorrow morning and as a committee decide on what scale the anniversary will be celebrated.

Few Changes Being Made in Payne Bill Schedules by Republicans on Ways and Means in Upper House

Nick Longworth Defends Measure as Fulfillment of Republican Promises—Democrat Condemns.

Washington, March 27.—"The Payne bill reduces the duty 5 points for every point increased, and reduces it 15 points for every point increased except for revenue purposes alone," said Longworth, of Ohio, in the house today. "It fulfills the Republican campaign pledge," he says. He denounced the minority's wall of no opportunity to frame the bill as absurd.

Harrison, of New York said: "Let the Republicans exchange the senseless 'full dinner pail' cry for the slogan empty coffee pot. It would force the poor man to pay a coffee tax."

Senate Committee.

Contrary to the general belief that the senate finance committee would make an enormous number of changes in the house tariff bill, few have been adopted so far. In the majority of cases the Dingley rates have been restored. The Republican membership is working in harmony, despite differences because of geographical alignments. Democratic members of the senate committee will not be consulted until the day before it is reported to the senate.

Opinion Prohibition.

Washington, March 27.—The treasury department today completed regulations for executing the law, prohibiting the importation of opium or preparations into the United States, except for medicinal purposes. Porto Rico and Hawaii are included. This action is under authorization of congress.

Vote on Payne Bill.

Washington, March 27.—According to present plans of the ways and means committee and leaders of the house, they will take a vote on the Payne tariff bill April 10, following the taking of the vote on the most opposed schedules. Republicans say 75 Democrats agreed to vote for the bill, providing a separate vote on a few schedules is taken.

Suits Filed in Circuit Court.

Ben T. Frank filed an amended petition to his suit against H. V. Sherrill and others this morning. Frank alleges that he purchased "Blackwood," a race horse, and that the horse was guaranteed as having a mark of 2:13 1/4, but that he failed to show that fact. He says that he spent over \$2,000 in giving the horse an opportunity to show his worth and to make the mark, but that he was unable to trot that fast. He sues for \$3,875.50.

KING PETER FEARS TO ACCEPT PRINCE'S RENUNCIATION OF RIGHT OF SUCCESSION

Vienna, March 27.—The popularity of Prince George with the king of Serbia is responsible for his withdrawal of his letter in renunciation of the throne, say the diplomats today. Peter would have accepted the resignation and named his son, Alexander, if he dared to invite the enmity of the war party. The official statement of the withdrawal of the letter is not made, but it is believed certain such action will be taken.

Victor May Meet Roosevelt.

Naples, March 27.—The rumor

WEATHER.

CLOUDY

Cloudy with probably showers in west portion tonight or Sunday. Highest temperature yesterday, 60; lowest today, 44.

IN AND OUT WINDOWS.
Whether A. Darden, alias Attaw, and James Legg, arrested by Patrolmen Stewart, Morris and Goudreau, are trick cottage performers, pals, or strangers, Darden was most unfortunate. It is charged that he and his wife made a sensational escape from Attaw's boarding house by throwing their baggage out of the window and themselves after it, leaving an unpaid board bill. They found lodging in a house at Fourth and Washington streets, where it is alleged Legg got in a window and was ransacking Darden's pocket, when Darden caught him and they were arrested for fighting. Legg was fined \$10. Attaw was fined \$25 for beating a board bill.

Loose Leaf Sales.
Tobacco sales at Bohmer's loose leaf warehouse this morning were 45,000 pounds, mostly Tennessee river tobacco. Prices ranged from \$3.60 to \$3.25. There were no selections this morning.

May Be Married Yet.

Seattle, March 27.—It is believed Gungiro Aoki, alleged nephew of General Aoki, and Helen Gladys Emery, daughter of the Episcopal archdeacon of California, got a license and will be married in this city or in a suburb. Miss Emery and her mother registered at the Savoy hotel. Aoki is a guest of Japanese friends here.

William T. Carr.

Mr. William T. Carr, 39 years old, died last night at 8:30 o'clock after an illness of several months of consumption, at his home, 1435 Burnett street. Mr. Carr was born and reared in Trigg county and came to this city ten years ago. He was a carpenter by trade. He was a member of the Maccabees. Mr. Carr is survived by his wife, one daughter four years old, his father, Mr. Chiles Carr, and one sister, Miss Elsie Carr. The funeral will be held tomorrow afternoon at 3 o'clock at the residence. The burial will be in Oak Grove cemetery.

Burning Grass.

Grass burning on a vacant lot near Seventh street and Kentucky avenue was the occasion for an alarm to the fire department yesterday afternoon. Fire companies Nos. 1 and 3 and truck company No. 4 responded, but the fire was extinguished with a bucket of water. A street car was standing at Fourth street and Broadway and the street was crowded when the fire wagons passed. Several people barely cleared the street before the wagons passed.

Cable Breaks.

Zwickau, Germany, March 27.—Twenty-four persons were killed today and twenty terribly injured when a cable, lowering a cage into a coal mine, broke. The cage dropped 100 feet. Engineers say the cable recently was examined and found in excellent condition.

Gentry Brothers Will Open Their Show Here.

Gentry Brothers Shows United, the greatest dog and pony aggregation in the country, will be in Paducah for two performances next Saturday afternoon and night. The performance here will be the first of the season. The shows will arrive Thursday and be here for three days. Gentry's shows have always been popular in Paducah. They have been coming here for years, and each succeeding season have had a better show than the year before. This year will be no exception.

Chicago Market.

Wheat	1.18 1/2	1.17 1/2	1.18 1/2

Ribs	9.40	9.32	9.37

HEALTH OFFICER WILL PROSECUTE HEALTH CAMPAIGN

Tuberculosis Ordinance Will be Enforced and Physicians Must Comply.

Otherwise Prosecution Will Follow.

WILL NOT ADOPT HARSH RULES.

City Health Officer Dr. H. P. Sights announced today that he will begin enforcing the tuberculosis ordinance, which classifies tuberculosis as a contagious disease. Dr. Sights said he will not make the ordinance any more onerous than circumstances demand for the protection of the lives of citizens. He said he realizes the fact that to have a house placarded for months, when there is a case of tuberculosis within, is distasteful; but he thinks the health officer should be given information so that he can investigate and exercise discretion. He realizes that this must first be a campaign of education, so it is probable that in cases, where proper precautions are observed by the family, they will not be harassed by extreme measures.

Physicians, however, must promptly report all cases, and fumigation will be required after a case has been in a house. Dr. Sights also will require the reporting of births, both by physicians and midwives. The federal government has called for a census, but none can be given back of 1909. This year Dr. Sights is endeavoring to keep a record, though he is not meeting with proper co-operation. Physicians and midwives can call him by phone and make reports.

Tuberculosis Ordinance.

Following is a copy of the tuberculosis ordinance:

Be it ordained by the general council of the city of Paducah, Kentucky: Section 1. That tuberculosis is hereby declared to be an infectious and communicable disease, dangerous to the public health.

Sec. 2. That it shall be the duty of every physician in the city of Paducah to report to the board of health of this city, in writing, the name, age, sex, occupation and address of every person having tuberculosis, who is now under the care of such physician, and such physician shall likewise hereafter report upon such case of tuberculosis that shall come under the observation of such physician for the first time, within one week of such time.

Sec. 3. That it shall be the duty of the commissioners or managers, or of the principal, superintendent or physician, in charge of every public or private institution, dispensary or hospital, in the city of Paducah, to report to the board of health, in writing, the name, age, sex and occupation and last previous address of every person infected with tuberculosis, who is now in their care, or who shall hereafter come under observation for the first time, within one week of such time.

Sec. 4. In case of vacation of any apartments or premises by death from tuberculosis, or by the removal therefrom of a person or persons infected with tuberculosis, it shall be the duty of the person in charge, or of the physician in charge, to notify the board of health, aforesaid, of such removal, within twenty-four hours thereafter, and such apartments or premises so vacated shall not again be occupied until duly renovated and disinfected as hereinafter provided.

Sec. 5. In case of the vacation of any premises or apartments, as set out in section 4 hereof, the board of health, or an authorized representative thereof, shall immediately visit said premises and shall order and direct that such premises or apartments and all infected articles therein be properly and suitably disinfected. In case there shall be no remaining occupants in such premises or apartments and same shall be vacant, then the board of health shall cause a notice in writing to be served upon the owner, or the agent or the owner of such premises or apartments, ordering the renovation and disinfection of such premises or apartments, under the direction of and in conformity with the regulations of the local department of health.

Sec. 6. In case any orders or directions of the board of health requiring the disinfection of any articles, premises or apartments, as hereinafter provided, shall not be complied with, within thirty-six (36) hours after such orders or directions shall be given, then it shall be the duty of the board of health to cause a placard in words and form as follows, to be placed upon the door of the infected apartments, or premises, to-wit:

Notice.
Tuberculosis is a communicable disease. These apartments have been occupied by a consumptive and may have been infected. They must not be occupied until the order of the board of health directing their renovation and disinfection has been complied with.
This notice must not be removed under penalty of law except by the board of health or an authorized officer. And such placard shall not be removed until such time as the order or directions of the board of health shall have been complied with and the removal of such placard authorized by the board of health.

Sec. 7. That any person who shall violate any of the provisions of this ordinance, and any person who, without written authority from the board of health, shall remove or induce another to remove any placard placed upon premises or apartments, as is hereinafter provided, shall upon conviction thereof, be subject to a fine of not less than five dollars (\$5) nor more than one hundred dollars (\$100).

Sec. 8. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Falkner Woman Tries to Escape En Route to Sharon, is Almost Mobbed and Finally is Interviewed in Jail

SAYS HE IS SANE.

Middletown, N. Y., March 27.—Ferdinand Plancy, Karle was consulting with lawyers today considering whether to fight the divorce suit brought by his affinity wife, Julia Keutner. It is reported he would be willing to allow the suit to go uncontested, were it not for the fact that his wife alleged he was a lunatic at the time of his marriage. He emphatically denies his reason is unbalanced.

Many people at every stop were eager to see Helen Falkner. Women shook their fists and the men cursed. The crowd was in an ugly mood. She was placed in a hospital cell, which was strengthened by more locks and bars. It is not known whether the attempt to jump from the train was suicide or escape.

Helen Falkner in the county jail today gave the United Press representative the first authentic interview, regarding the kidnapping of Billy Whittle and her past life. "I am the legal wife of James H. Boyle. I deny I was an accomplice to the kidnapping. I mean to stand by my husband. I am sure he wasn't the instigator of the plot. My mother and father are dead. I have cousins in Chicago. I intend to remain a woman of mystery, because I have many friends in good society." She denied past interviews. She refused to tell her parents' name.

"I am a southern woman and have good family connections," said Mrs. Boyle. "I always associated with reputable people. I was injured in an automobile accident in Florida two years ago. I will not say where. If I did I would bring well known people into publicity. I am not Anna McDermott, of Chicago, Anna Wilson, of Denver, or Helen Falkner."

She refused to answer questions as to whether she had lived in Louisville or French Lick Springs, Ind.

Attempt to Escape.

Pittsburgh, Pa., March 27.—Helen Falkner, alleged kidnaper of Billy Whittle, attempted to escape from a Bessemer and Lake Erie train this morning near Valencia on her way to Mercer. She started to run through an open door and then to jump through a window. She was caught by Sheriff Gumbert.

Denies Identity.

Pittsburgh, March 27.—Mrs. Boyle, alias Falkner, abductor of Billy Whittle, was taken from the Allegheny county jail and hurried to Mercer to prison on the 1:36 train. Before leaving the woman denied she was Anna McDermott, of Chicago. She said her father was not a fireman. She never lived in Chicago.

Postal Cards for Whittle.

Sharon, March 27.—Billy Whittle will be the souvenir postal king of April if F. G. McCauley, of North Royalton, O., interests the parents of children to unite in congratulating the boy on his return by mailing cards to him that day.

SECOND EPISCOPAL IS BEATEN AT BASKETBALL.

The Paducah Independent basketball team defeated the Second Episcopal church team this morning by a score of 18 to 12. The game was played in the Eagles' gym and was fast and exciting. A number of boy friends of the players witnessed the game. The teams lined up:

P. I.—James Gleaves, center; Boyd Shelton and Louis Balthaser, forwards; Jack Cave and John Balthaser, guards.

Second Episcopal—Clarence Gardner, center; Dewitt Wilcox, and Pett Powell, forwards; Laurence Powell and Thomas Corbett, guards.

D. A. R. Fountain

Dr. Della Caldwell, chairman of the D. A. R. Memorial Fountain committee, yesterday received the drawings for the fountain from Mr. Lorado Taft, the sculptor-architect, of Chicago, and they have been placed in the hands of the city engineer. Mr. Washington thinks that the fountain can easily be ready for dedication by May 1, as planned.

Railroad Agreement

Los Angeles, March 27.—There is a report that E. H. Harriman, Lewis and Hill had come to a definite understanding as to the policy governing the western railroad situation. It is said Harriman will not interfere with Hill's plans in the northwest. Harriman arrived at Burlingame, a fashionable suburb, this morning. His car was side-tracked beside Hill's special train. Harriman is in the heat of spirits and discarded his exclusive attitude and talked freely.

Indianapolis, March 27.—President Lewis, of the miners, says no date has yet been fixed for the conference of miners and anthracite operators to consider demands formulated at the Scranton convention. Lewis is greatly pleased with the outcome of the convention. He refuses to say whether he thinks there will be a strike, but he appears to consider the situation well in hand.

Adam Rykavage, John McElhane and John Fahay, from the anthracite field, were summoned and arrived today to give the anthracite trouble conditions before the executive board.

Says She Had Nothing to Do With Kidnaping and Her Partner is Her Husband; No Past Life Exposed.

Many people at every stop were eager to see Helen Falkner. Women shook their fists and the men cursed. The crowd was in an ugly mood. She was placed in a hospital cell, which was strengthened by more locks and bars. It is not known whether the attempt to jump from the train was suicide or escape.

AIR DRUM BURSTS AND TEARS HOLES IN I. C. R. R. SHOPS

Few Minutes After Night Shift Quits Work and No One is Hurt.

Windows Broken and Brick Wall Smashed;

PIECES PIERCE THE ROOFS

With terrific force a large air drum, used for supplying the Illinois Central railroad shops with compressed air, let go this morning about 4:20 o'clock. By the force of the explosion a section of the brick wall to the boiler shop was blown down, while all of the windows in the boiler and machine departments and the office of Master Mechanic J. H. Nash were smashed to smithereens. Fortunately only a few employees were at work, and not one man was injured, although had it occurred during work hours in the day it is certain that many would have been killed and injured.

Flying fragments of the drum went over the shops. Artie Ryan, an apprentice in the boiler department, had a narrow escape from death. He was in the boiler department when the drum let go and a large piece of the tank passed a few inches of his head. The piece of iron tore a hole through the roof in the boiler department, so terrific was the force of the explosion. Another fragment fell on the roof of the car repairing department and tore a hole through the roof.

The explosion occurred at an hour when few employees were at work, as the majority of the men quit work at 1 o'clock, about 20 minutes before the drum exploded. Several employees were eating a lunch in the tool room, about 50 feet away, but they were not injured. The tool room was not damaged as badly as the brick buildings. The explosion was heard in all parts of the city and many citizens thought an earthquake was on when they were awakened from their sleep by the explosion. Windows were shaken for blocks around.

The drum is about 10 feet in length and has a diameter of nearly four feet, with a capacity of about 130 cubic feet. The officials say there was a pressure of about 160 pounds. The drum was in horizontal position by the side of the boiler department. Several theories are advanced as to the cause of the explosion. One is that the pressure of the air was too great for the drum, while another is that gas from the oil used on the pump was mixed with the air, and this caused the explosion. The shops have several other air drums, and work was not impeded this morning. The officials declined to discuss the explosion or what the damage will amount to. Several hundred square feet of glass was demolished. Work was begun this morning removing the debris.

Philippine Protest

Manila, March 27.—Resolutions to congress were filed in the Philippine assembly today, protesting against the Payne tariff bill's provision. It declares the bill is prejudicial to the interest in the Philippines. It is expected the commission will refuse to concur.

New Coal Tipple

A new steel coal tipple costing \$50,000 has just been completed for the West Kentucky Coal company at Caseyville. The output of the mines, which is 2,400 tons daily, is easily handled and loaded in barges by the big steel concern. A boat-coaling device is arranged on the tipple and 1,000 bushels of coal can be put in the bunkers of a boat in fifteen minutes. In the local harbor the West Kentucky Coal company will have its new device for coaling steamboats in working order within the next two weeks and any steamboat can be coaled in 10 to 15 minutes.

Mary Farmer is Game

Auburn, Mo., March 27.—"I will die like a queen, going to court," said Mary Farmer, who will die Monday in the electric chair for the murder of Sarah Breanan. Realizing there is no chance of pardon, she is spending the time in perfect composure and heroic resignation. It is believed today Mrs. Farmer either has or will make a confession, exonerating her husband in the murder. She said she will tell the true story of the tragedy before the march to the death room. Father Hickery intimates that he will have the statement to give out after the electrocution to show the woman has not lost all her womanhood.

THE KENTUCKY WEDNESDAY 31 NIGHT, MARCH

Return of Last Season's Greatest Dramatic Success. The Most Talked-of Play of the Century

Seat sale opens Monday, March 29

O'BRIEN SAVED BY THE GONG

Knocked Down Three Times
in Tenth Round.

Many Thought Philadelphia Would
Do Some "Stalling" But Were
Agreeably Surprised.

PRACTICALLY CLEAN KNOCKOUT

New York, March 27.—Not since the repeal of the Horton law which stopped big flatbouts in this city, has a fast and furious contest been seen here in a squared circle as that in which Stanley Ketchell, middle-weight champion, defeated Jack O'Brien, of Philadelphia.

Many thought that O'Brien would do some "stalling" in this fight, but everyone who saw the fight was agreeably surprised for it was a hot bout from start to finish.

In the final round O'Brien was knocked down three times, and the last time was practically a clean knockout, for the timely clang of the gong found the Philadelphia in a stupor state. It was Ketchell's fight for the greater part of the con-

test and O'Brien has no excuse to make over the outcome.
The tenth and last round was one that attracted the most attention. At the very opening of this round Ketchell put two left hooks to the jaw which forced O'Brien to clinch. O'Brien could do little more than block and clinch at this stage. O'Brien tried his left jab and slowed Ketchell up a bit.

Right and left swings to the jaw from Ketchell sent O'Brien to the floor for five seconds and he went down from a right swing to the jaw for nine seconds. Two more smashes on the jaw, a left uppercut and a right swing sent O'Brien down again for four seconds before the bell ended the bout. This saved O'Brien from a knockout.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Bleeding or Protruding Piles in 6 to 4 days or money refunded. 50c.

News of Theatres

When Paducah took "Mme. Butterfly" to its arms and demonstrated that it appreciated and would liberally patronize grand opera, the management of The Kentucky planned to bring a musical attraction of the first grade to Paducah each season if possible to secure it. It is not easy to induce such organizations to visit cities of less than one hundred thousand on account of the expense and

risk. Early in the current season a contract was made for the appearance of Mme. Nordica at The Kentucky, but a change in her plans caused its cancellation. Then an arrangement was made involving a big guarantee with The San Carlos Opera company, of which Alice Neilson is the star, but business conditions in the south caused the company to change its route before the Paducah engagement. Notwithstanding these disappointments the management has been on the alert for something unusual of the kind, and word just received from Mr. M. J. Carney, who is now in the east, indicates that positive announcement will be made within a few days of the engagement of a grand opera company of note which will give one performance of "Faust" or "Il Trovatore" at The Kentucky about the middle of April.

Boyle Woolfolk, who comes to the Kentucky Thursday night with Murray and Mack, has many friends in Paducah, won two years ago when he presented one of his clever musical plays in Paducah with local amateurs at The Kentucky, and gave one of the smartest and most successful amateur performances ever seen in Paducah. Mr. Woolfolk is the author of the lyrics and music of "The Sunny Side of Broadway," while the dialogue is by Gene Walters, author of "Paid in Full," probably the most successful serious drama of the past two seasons. While not in the east of "The Sunny Side of Broadway," Mr. Woolfolk will appear in the second act and sing his famous Dixie Daisies, assisted by the entire chorus and will conduct the overture a melody of his latest song successes, which are being sung today throughout the country.

Among Boyle Woolfolk's noted song successes in "The Sunny Side of Broadway" are "Meet Me at the Stage Door, Johnnie," "Every Town Has Its Broadway," and "Dixie Daisies," which have gained a wide popularity and netted their author a comfortable sum in royalties.

The Nashville Banner says: "It has been a long while since a political play has come to the Vendome in which the ideals of the young man in public life have been given a more creditable and a more capable ex-

Stearns' Electric RAT and ROACH PASTE

OF CHICAGO,

No. 228 North Sixth Street,
Corner Sixth and Monroe.

I promise to tell you whether your husband, wife or sweetheart is true or false; tell you how to gain the love of the one you most desire, even though miles away; how to succeed in business, speculation, law suits; how to marry the one of your choice; how to regain youth, health and vitality; remove influences, cure drink habits, locate treasures.

Readings 50c. Bring this ad. 9 to 8 Sunday 10 to 4.

pression than in George Broadhurst's "The Man of the Hour," presented to only a moderately filled house last night. "The Man of the Hour" is not only a clever work—it is a great work; and in these perilous times, even though much-raking has become somewhat discredited the success of the young man in politics who overcomes the bewilderingly intricate and powerful obstacles placed in his path by graft and wins a victory for decent and honest municipal government is still easily one of the most powerful and gripping subjects to which the stage can lend expression. There is much in "The Man of the Hour" to interest the casual theatergoer whose only purpose and only desire is to be amused—but there is more in Broadhurst's play to interest the student of modern politics, and to teach the young idealist a lesson, without being too Nathaniel-Hawthorneque.

The play was here last year and made an unusual hit with local theatergoers.

Tuesday night, the 30th, the Wagenhals and Kemper production of "Paid in Full" will be presented. This play contains four great acts and was written by Eugene Walter. For his theme Mr. Walter has taken a great moral issue in our American life and his treatment, development and characterization is said to be stamped with an amazing candor and

frankness. Cut and dried rules for playwrighting have been cast aside and he has proceeded on the belief that red blood, bone and sinew of which we of this world are constituted; our thoughts, deeds and emotions form a pretty fair basis for a play. Mr. Walter makes a determined attack and the unusual aspect of his own play has won him success. In part the theme of "Paid in Full" may be described as delicate, but the author deals with it truthfully and naturally. His dialogue is the understandable vocabulary of the hour and he has adroitly knitted together a most consistent chain of incidents. In the character of Joseph Brooks he has an individual with socialistic tendencies and without an egoist. His heart is filled with snail hatred because his employer does not favor him in the wage matter as generously as he does other workers and in a moment of recklessness he becomes an embezzler and then sets up his wife and himself in a lavishly appointed apartment. In an effort to win back part of his stolen gains he "plays the ponies" and goes deeper into the mire with the inevitable result—discovery. In Brooks, Mr. Walter has written a wondrous character, likewise in the persons of Captain Williams, Jimmy Smith and Emma Brooks, characters so natural and lifelike as to be wholly unusual.

"The Sunny Side of Broadway," which is the title of the attraction offered by Murray & Mack, could have been called the "Funny Side of Broadway" with the same appropriateness, as it is nothing but fun intermingled with catchy songs from start to finish. The first act shows Columbus Circle in New York with beautiful Central Park in the background, and the second act depicts the beautiful Yale Campus at New

More DELICIOUS FRUITS

Juicy, full-ripe fruits, ripened on tree and vine, are now being shown at their best here.

Big, sound Naval Oranges, heavy with juice, choice Smyrna Figs, selected hand-picked Apples from Oregon and Idaho—in short, all that is luscious and tempting.

Stop here on your way to market in the morning and see if the sight doesn't make your mouth water.

LOUIS CAPORAL
331 Broadway
Both Phones

Haven, Conn. In addition to the elaborate stage settings the production is equipped with many novelities and electrical effects. Among these are the wonderful faceograph, the latest invention in stage and electrical contrivances. There are only three of these machines in use, one in London, one at the New York Hippodrome and one in "The Sunny Side of Broadway."

The attraction will play at The Kentucky theater next Thursday night, April 1.

If the demands of the Women's Social and Political Union of England are conceded about a million and a half women will have the vote.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibers and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S.S.S. cures skin diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S.S.S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

The Week In Society.

MARCH.

Who's afraid of your cold and blowing.

Of your wind and hail and blowing.

Do the worst that you can do, sir,

Have and blow.

But don't I know

That the spring is just a-springing?

That long sparrow yonder singing

Told me so.

While you're howling, yowling, squall-

ing.

I can hear the robins enfling.

Spring.

Something new comes with each

corner—

Bluebird brings a bit of summer

On his wing.

Rave, old wind—your road and

bluster.

Can't scare pussy-willow's cluster.

Drowsy woodchucks rouse from sleep-

ing.

Wild stubs vines are creeping.

Snow-fed mountain brooks are leap-

ing

To the lake.

All the world stirs, shyly peeping

Half awake.

—March Farm Journal.

SOCIAL CALENDAR.

TUESDAY—The Delphic club will meet at 10 a. m. in the Delphic room at the Carnegie Library. The program is:

1. Oration, Demosthenes, Isocrates, Aeschines.—Miss Mattie Fowler.

2. Mathematics. Euclid and Archimedes.—Miss George Langstaff, Jr.

3. Astronomy. Aristarchus, Hipparchus, Claudius, Ptolemy.—Miss Helen Lowry.

WEDNESDAY—The Crescendo club will meet at 4:15 p. m. at the

studio of Miss Newell, 403 North Seventh street.

THURSDAY—The Woman's club will meet in regular session at 2:30 p. m. at the club house. The open meeting at 3:30 o'clock is under the auspices of the Educational department of the club. The literary and musical program will include a lecture by Dr. W. H. Bartholomew, principal of the girl's high school of Louisville.

FRIDAY—The Kiloephic club will meet at 10 a. m. at the Woman's club house. The program will include:

1. Lull and his Works—Da Vinci's Influence on his Style.—Miss Elizabeth Sinnott.

2. The Greek Temple ruins at Paestum—near Naples.—Miss Elsie Bradshaw.

3. Secret Societies and Brigandage in Naples.—Miss Kathleen Whitefield.

4. Current Topics.—Miss Carline Sowell.

FRIDAY—Paducah Chapter, Daughters of the American Revolution, will meet at 2:30 p. m. with Mrs. Roy W. McKinney, 1912 Jefferson boulevard. The program for the afternoon is:

Song—America.

Recitation—Quintus Curtius Events.

Paper—Historic Trees in America.—Miss Emily Morrow.

Reading—Selected.

Reading—Selected.—Mrs. H. S. Wells.

MUSIC.

FRIDAY—The Woman's Auxiliary of Grace Episcopal church will have the Missionary Tea for April at the parish house at 3 p. m. The change has been made from April 9, on account of it being Good Friday. Ph-

pers will be presented on the Kentucky Bishops Smith, Cummins and Dudley, and on Current Events. Mrs. James Campbell Flournoy is the hostess.

SATURDAY—The Art department of the Woman's club will meet at 10 a. m. at the club house. The Barabizon School of Painting will be discussed as follows:

Paper—"The Barabizon School"—Mrs. John Dorian.

Jean Baptiste Corot, 1796-1873.—Miss Frances Goid.

Theodore Rousseau, 1812-1867.—Miss Jennie Gilson.

Jean Francois Millet, 1814-1875.—Miss Compton.

Reading, "The Man With the Hoe" (Markham)—Mrs. Anna Bird Stewart.

Wedding of Miss Martin and Mr. Jonson Will be a Charming Home Ceremony.

The marriage of Miss Elizabeth Martin to Mr. William Crawford Jonson, of Greenville, Ky., will take place Monday evening at 9:30 o'clock at the home of the bride's parents, Mr. and Mrs. William Alexander Martin, 1109 Jefferson street.

The ceremony will be pronounced by the Rev. Grant T. Sullivan, pastor of the Broadway Methodist church. Miss Virginia Newell will play the Mendelssohn wedding march as the bridal procession, and will give a musical program preceding the ceremony. The maid of honor will be Miss Marjorie Martin, the sister of the bride. The best man will be Mr. William Milton Martin, of Birmingham, Alabama.

An informal reception will follow the ceremony. The couple will leave at 1:20 o'clock for their home in Greenville.

Out-of-town guests present for the wedding will be Judge J. C. Jonson, of Greenville, father of the bridegroom; Mr. and Mrs. Gerold A. Jonson, of Madisonville; Mr. and Mrs. Clarence Martin, of Greenville; Miss Grace Robinson, of Greenville; Dr. Beverly Martin, of Greenville.

Announcement of the engagement of Miss Martin to Mr. Jonson was made several weeks ago. The bride-elect is a talented and attractive young woman, the eldest daughter of Mr. and Mrs. William A. Martin. Mr. Jonson is a prominent young lawyer, of Greenville, junior member of the firm of Jonson, Winkler and Jonson.

Education Department to Bring Notable Speaker.

The Department of Education of the Woman's club, Mrs. Henry C. Overby, chairman, will present Dr. W. H. Bartholomew, of Louisville, at its open meeting on Thursday afternoon at 3:30 o'clock at the club house. Dr. Bartholomew is principal of the Girl's High School, in Louisville, and enjoys a national reputation as an educator and a man of culture. He will speak on "The Child" and should be heard by all who are in any way interested in child-culture. A program will precede Dr. Bartholomew's lecture, and the teachers of the city schools who can not be present as early as 3:30 o'clock will be able to get there before the lecture begins.

The program for the afternoon will be:

Honor Story.—Miss Lucy Overby.

Vocal Solo.—Miss Faith Langstaff.

Honor Oration.—Miss Clara Smith.

Honor Oration.—Miss Clara Smith.

Bartholomew.

Second Evening Recital April 6.

The Matinee Musical club will give the second of the series of charming evening recitals on Tuesday, April 6, at the Woman's club house. The program will be "Enoch Arden," read by Miss Aline Bagby to an accompaniment of Strauss music played by Miss Virginia Newell.

A Poem of Faith.

Perhaps, few of the friends of the gifted Clara May Clark Young knew that she was unusually clever with her pen, they were so accustomed to think of her talents in commensuration with her success on the stage. Many beautiful little poems were

LESS MEAT

Advice of Family Physician.

Formerly people thought meat necessary for strength and muscular vigor.

The man who worked hard was supposed to require meat two or three times a day. Science has found out differently.

It is now a common thing for the family physician to order less meat, as in the following letter from a N. Y. man.

"I had suffered for years with dyspepsia and nervousness. My physician advised me to eat less meat and greasy foods generally. I tried several things to take the place of my usual breakfast of chops, fried potatoes, etc., but got no relief until I tried Grape-Nuts food.

"After using Grape-Nuts for the cereal part of my meals for two years, I am now a well man. Grape-Nuts has benefited my health far more than the \$500.00 worth of medicine I had taken before.

"My wife and children are healthier than they had been for years, and we are a very happy family, largely due to Grape-Nuts.

"We have been so much benefited by Grape-Nuts that it would be ungrateful for me to acknowledge it."

Name given by Postum Co., Battle Creek, Mich. Dead "The Road to Wellville," in pgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

The mere fact that
Scott's Emulsion
is universally recommended for Consumption is proof positive that it is the most energizing and strengthening preparation in the world.

It warms and nourishes, it enriches the blood, stops loss of flesh and builds up. Get Scott's.

SCOTT & BOWNE, 406 Pearl Street, New York

found among her papers and writings after her death, only a few of them having been published. Most of them breathe that gentle, Christian spirit that was one of her loveliest attributes of character. The following is one of the latest and seems sadly prophetic in its thought:

FAITH.

For every joy there's a grief, they say;

For every smile, a tear and a sigh;

For every moment of bliss there comes

An hour of pain and misery.

The clouds oft hide the light. They say;

That the sun is always just as bright;

But it seems sometimes to our starved souls

That our day is everlasting night.

But all the light is there they say, And sheds its beam o'er the restless sea.

Of hopeless, helpless, drifting souls From "The Rock of Ages Cleft for me."

Surprise Party.

A surprise party was given last night by Mr. Clarence Tolbert in honor of Mr. Shields Ogden, of Jones street. About 50 young people were present and an enjoyable evening was spent. An impromptu musical program was rendered, and delightful refreshments were served.

Of Interest Here.

The Bowling Green Messenger makes following mention of a former Paducah woman who has many friends here:

"Conspicuous by her absence was Mrs. C. J. Vanmeter from all of the recent club meetings, as she is just now recovering from a very severe spell of pneumonia. Mrs. Vanmeter is an enthusiastic U. D. C. and takes much interest in keeping green the memories of the dead heroes who so bravely laid down their lives for the lost cause.

Types of Shirt Waists.

There are several distinctive types of shirt waists this season. The severely tailored shirts to wear in the informal hours of the morning are exceedingly smart and trim. The white materials must share their former favor with the colored skirts.

And here the abundance of good designs is most perplexing. A very neat pattern is found with the white ground and a half-inch wide stripe outlined in black. Again a lavender background, for instance will be striped with a narrow green stripe outlined in black. Again a lavender ground will boast of darker lavender and white stripes with white flowers. The variety is practically endless, so why enumerate? These goods are priced at \$1.25 a yard, and are guaranteed not to fade and to launder perfectly. They are, in fact, very much on the order of men's shirts, and that is what we desire in the strictly tailored shirt. In madras the corded effects are particularly good.

For the cool days, especially at the shore the thin flannel waists, likewise built on the tailored lines, are admirable. The flannel which we have in mind is very fine and light and quite different from the former varieties. A charming design on white flannel consists of a narrow pink stripe alternating with a little wider one of white silk.

For the dressy-bonnet French cotton crepe has everything its own way. In fact, so strenuous had been the demand that many of the large shops are sold out, and have been obliged to wait for shipments. A novelty in this crepe is in pale blue or pink or lavender with a tiny frill woven into the material at spaces of an inch or so apart. A blouse of this fabric would require very little, if any, trimming. Cluny and Irish lace and hand embroidery enhance these blouses of crepe.—Fashion Notes.

Shooting in Tennessee.

Clarksville, Tenn., March 27.—Wiley Gill, a well known young man of this county, shot and killed Melville Mickle about 6 o'clock with a Winchester rifle. The trouble occurred in front of Gill's home, in District No. 15, and is said to have been caused by a love letter which Mickle wrote to Gill's 15-year-old sister. Gill has not yet been apprehended. Mickle was about 27 years old.

Last year the export of electrical instruments and heavy machinery amounted to \$12,613,750, as compared with \$17,460,775 the previous year, or a net falling off of \$4,847,025. This is a loss of over 25 per cent. in the one year.

Absence invigorates strong intellects.—Rochefoucauld.

BOARD AWAITING COMPANY'S TERMS

Postpones Decision Regarding Improvement.

Will Compare Cost of the Lighting Plant to Light and Power Contract.

FOR LIGHTING CITY STREETS

Because the board of public works wanted to get terms from the Paducah Light and Power company, regarding the furnishing of the city with electricity for the street lights, the board did not let the contracts for additional improvements at the plant yesterday afternoon. It was intended to award a contract for the erection of a brick stack and of the installation of a contract, but before going to this expense the board decided to wait for the proposal of the Paducah Light and Power company.

Upon motion of Mr. Katterjohn the board decided to get the reports of the plant for the last five years and in this way compare the cost of each light with that which is proposed by the private company. The cost of the city furnishing the power is said to be about \$40 a light a year.

Complaints from property owners about bad drainage on Broadway near Twenty-fourth street was personally inspected by the members.

ROYAL Baking Powder

ABSOLUTELY PURE

Where the finest biscuit, cake, hot-breads, crusts or puddings are required Royal is indispensable. Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar—made from grapes—

Most of the water comes from property in the county, but the board has the promise of the county that a ditch will be cut through Twenty-eighth street, which will carry all of the water in that vicinity to Perkins' creek. By the personal inspection with City Engineer Washington it is hoped to eliminate the water by turning the water down different streets.

The meeting was a called session yesterday afternoon and the board decided to meet April for the purpose of receiving the proposal from the Paducah Light and Power company.

DeWitt's Carbollized Witch Hazel Salve penetrates the skin and heals quickly. It is especially good for piles. It is sold by all druggists.

The largest pontoon bridge in the world connects Calcutta and Howrah, States.

Want Filter Improvement. Washington, March 27.—Many Indiana cities bordering on the Ohio river are interested in an annual appropriation by congress of \$50,000, 000 for the waterways of the country. Senator Shively introduced memorials of this character from the Tell City Improvement association, the Lawrenceburg Commercial club and the Jeffersonville Coal Exchange.

If you should have a cold, a few doses of Kennedy's Laxative Cough Syrup will act very promptly. Children especially like Kennedy's Laxative Cough Syrup, as it tastes so good, nearly like maple sugar. It is sold by all druggists.

While a serious decline is shown in the international trade of last year, the balance of trade is greater than ever before in favor of the United States.

NEWBRO'S HERPICIDE

The original remedy that "kills the dandruff germ"—An exquisite hair dressing.

THE LADIES OBJECT to a gunny and sticky hair dressing or one that is full of sedimentary elements intended to dye the hair. The marks, preference for a clean and shiny preparation, particularly one that overcomes excessive oiliness and leaves the hair light and fluffy, is reflected in the enormous sale of Newbro's Herpicide. Discoloring ladies become enthusiastic over its refreshing quality and exquisite fragrance.

A WOMAN TO BE PRETTY must have pretty hair. The features may be quite plain or even homely, yet if the head is crowned with an abundance of beautiful hair, attractiveness will not be lacking. The poet says: "Fair tresses man's imperial race enhance." Herpicide gives the hair a charming distinctiveness that is characteristic of no other hair dressing.

DISEASES HAVE A MISFORTUNE, unsightly or discolored hair is a misfortune in more ways than one. There is the actual injury to the hair follicles and the consequent loss or thinning of the hair; this may

cause diseases that sometimes follow a removal or thinning of nature's protection to the head. A diseased condition of the hair affects a woman's disposition to a marked degree. If the hair is dull, brittle and lifeless, owing to the presence of a microbial growth, the effect is to dampen one's spirits and cause a loss of interest in personal appearance. The use of Newbro's Herpicide overcomes the ravages of the dandruff microbe, after which the natural beauty and abundance of the hair will return as nature intended. Almost marvelous results follow the use of Herpicide. Gentlemen will find Newbro's Herpicide in use at all important barber shops.

STOPS ITCHING OF THE SCALP ALMOST INSTANTLY. "Regarding the merits of Newbro's Herpicide, an article that your Agent left a trial bottle with me to test; I have prescribed it in several instances and have had favorable reports therefrom in each case." (Signed) RUTH M. WOOD, M. D. Lincoln, Neb.

DESTROY THE CAUSE—YOU REMOVE THE EFFECT.

Send 5 cents in stamps for sample to THE HERPICIDE COMPANY, Dept. 1, Detroit, Mich. Our bottles are Guaranteed. At Drug Stores. When you call for Herpicide, do not accept a substitute. Applications at prominent Barber Shops.

W. F. PAXTON,
Notary Public, McCracken Co.

Daily Thought.

"Sympathy and kindness are never wasted; if they have no effect on the recipient they at least benefit the bestower."

Not the severity of the punishment, but the certainty and promptness of it, are the best discouragers of crime.

JUVENILE COURT.

The theory of the juvenile court is to see the cause of evil tendencies in children and correct them. If it is bad home influence, not to remove the child from home, but to improve it; if the trouble is disease or starvation, remedy it; if unhealthful tenements are discovered, compel improvement; if the parents are delinquent, take charge of the child. Breaking up homes and sending children away from them are bad both for the parents and the children. Realization of responsibility for a growing generation is a great moral force. It's a mighty poor home that isn't better than a good institution. Make the home better, is the demand on the juvenile court. That is why probation officers, men and women of various religious denominations and nationalities are required, to keep in touch with the home life and conduct of the wards of the court. When the juvenile court is more generally understood, McCracken county will insist on having one.

WASTE OF A CITY GOVERNMENT.

If Mayor Smith (or any other capable business man with experience, who would devote his time to public business) were given authority to take charge of the city's affairs during his term of office and operate it, subject to recall and the initiative and referendum in certain contingencies, he could save the city \$10,000 a year. Personal observation of municipal affairs under the present administration has disclosed to us the fact that time and time again, when the mayor would have adopted some common sense, business expedient that would result in saving money or earning it for the city, he has been confronted by lack of authority, and the necessity of awaiting the action of some other department. Lately the administration has encountered in the general council a spirit of antagonism, that crops out in a desire to hinder every effort to benefit the city, lest the mayor win popular approval for his conduct of the city's affairs. The friction is causing the city thousands of dollars.

At this very moment, because there is a split in the general council over the office of license inspector, and in spite of the fact that the court has decided one man is elected, and the general council appropriated a salary for the office, payment has been refused and the city has lost up to the present time since January 1, approximately \$6,000, that never will be collected.

A municipal government is different from the state and nation. It is a development of modern social life, and no part of the original theory of popular government. The necessity for protection of life, property and health in densely populated communities, is the one excuse for a municipal government. It should be operated as economically, equitably and beneficially as possible, and the

only consideration that should guide us in the selection of a form of government, is practicability in view of these three ends.

Are we not tired of municipal waste and graft? Are we not disgusted with petty politics? Are we not disheartened over the immunity both administered to Sunday violators and hind tiger operators? Do not tax payers begin to think it is time for their taxes to be spent for their benefit?

The trouble with our present system is divided responsibility. It enables shirkers to hide behind some one else; it enables corruptionists to shift the blame; it discourages men, who know how and would like to do their duty; it prevents citizens from fully understanding the operations of their government and directing their reforms effectively. Legislative tampering is an offspring of the system; but with authority and responsibility properly concentrated, the temptation will be removed from the politicians.

Des Moines, Iowa, which has been trying the commission system of government, formerly ran behind \$50,000 annually. The report for the first report under the commission shows that the city saved money. How would that suit the gentlemen, who were indignant because it was necessary to increase their licenses in order to cure the city of the deficit habit, into which she had fallen and to meet the pressing demand for moderate improvements?

Think it over. If the burden is grievous enough to warrant you in fighting against the result of a bad system, isn't it grievous enough to warrant you in going to the root of the trouble and eliminating that?

THE SPECTATOR.

Weekly Comments on Things About Town.

The railroad commissioners of the state have come and gone, and left behind them the news that the Union station is in excellent condition.

The officials, way up in G—of the I. C. R. R., have been here and held a love-feast with some of our citizens. But never a twister as to the palpable fact that the I. C. R. R. Union station is absolutely inadequate to the needs of our city, and very possibly one of the drawbacks to our growth.

The Spectator had to meet a friend coming in on the evening train. The night was cold and a drizzling rain was falling. As the street car deposited him at the station, he, with many others stepped out into a mud puddle nearly up to shoe tops. From that mud puddle he hurried through the rain, wriggling his way through trucks laden with baggage and express matter of various size and shape to the waiting room. This was crowded with men, women, children, foul air and odors,—odors from tobacco, odors from foul air, odors from the kitchen of the lunch room, odors perceptible from the toilet room. On one side of this room was a narrow passage,—leading to the lunch room, and there were benches lining one side of this hallway. It was labeled smoking room, but the smoking was being done out in the main room, in the company of women and children. On the other side of this main room was one about fifteen feet square, intended for the women, but absolutely inadequate for their numbers, to say nothing of their needs. To escape all this meant to step out into the open air. In the rain, without a shed of any description overhead.

Finally the train pulled in, forty or more passengers dismounted into the rain without protection of any sort, while forty or more other passengers stood in the rain waiting for an opportunity to embark.

All this in a city, which in point of amount of freight and express handled and number of passengers handled, ranks as the third station on the division of the Illinois Central railroad. No wonder The Spectator was dumb when his friend growled disgustedly, "This is the hummer town over,—what is the matter with you people that you stand for this?" Well, why do we stand for it?

The commissioners have issued their fiat that the condition of the station is good,—but? Let a protest be sent in signed by any number of reputable citizens, stating this grievance and asking for redress, and the Lawyer Friend of The Spectator assures him that said commissioners will have to take heed and the road will have to build something adequate to our needs. Is a tenth rate station sufficient for a first-class town? Let us get a move on us, as we did about the downtown office for both the roads.

FERMENTATION AND UNDIGESTED FOOD

Rid Yourself of Stomach Trouble Forever With Diapensin.

Some people think they have indigestion, others Catarrh of the Stomach, others Nervousness, Cancer or Dyspepsia, etc. Call it this if you will, but the real name of your trouble is Food Fermentation, with only partial digestion. Everything you eat turns to either Acid, Stomach gas or Stomach poison, which weakens the digestive organs, causing a lack of gastric juice. Your food sours, is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, burning sensation, a feeling of vomiting, heartburn, water brash and tenderness in the pit of the stomach, slimy tongue, bad taste in the mouth, constipation, nausea, belching of gas, dizziness, sick headaches, mental depression and many other common symptoms.

You can cure all this by not eating, by not putting any food in your stomach to ferment; but how about the nourishment needed to sustain your bodily strength? If you are a stomach sufferer, either man or woman, young or old, whether you call it indigestion or any other name, go now to your druggist and give 50 cents for a case of Diapensin.

Every possible kind of Stomach trouble is readily cured by Diapensin, which takes right hold of the food in your stomach and digests it alone, without the help of the stomach, just as if your stomach wasn't there.

After a few days' use of Diapensin your Stomach will again be in good working order, your meals will thoroughly digest and your intestines will be clean and fresh, and you will have no use for laxatives or liver regulators.

DUN'S REVIEW.

New York, March 27.—Favorable conditions in the crop-growing sections promise well for the future and the seasonable weather generally prevailing is helpful to the trade, particularly cheerful. The tariff discussion in congress bears heavily upon many trades. Whatever progress is making in iron and steel is mostly confined to structural lines. Further reported reductions in the price of material have also broadened the demand for construction work and undertakings that had been deferred are again appearing. Stocks of pig iron continue to accumulate in the principal sections of the country, and there is still talk of a reduction in active capacity.

In the primary dry goods market the demand at present is entirely confined to immediate requirements. Locally there is little activity among the distributors and although the volume of business transacted shows a moderate increase compared with the corresponding period in 1928, sales by no means approach the normal.

The print cloth situation is less active, but gingham continues to be in good request and certain lines of bleached goods are scarce and difficult to secure. In the woolen division interest centers chiefly on prompt delivery sample pieces, travelers preparing to go on the road earlier than usual.

Trade in all kinds of footwear is still very dull, buyers awaiting developments; but stocks are further depleted. Recent large sales of domestic hides caused a sharp advance in prices, especially in the country market.

Total Bank Clearings.

New York, March 27.—Total bank clearings compiled by Bradstreet for the principal cities of the United States the past week, \$2,538,966,000, against \$2,188,357,000 in the corresponding week last year.

ICE! ICE!

It's money to you to make a contract with Independent Ice and Coal Co. Phone 154.

The Liberty will run an excursion here tomorrow from Elizabethtown and way landings in the afternoon. She will run an excursion out of this port from 1:30 to 4:30.

The steamer Joe Fowler will get away Monday morning at 11 o'clock in the Paducah and Evansville packet route. She has been tied up in the local harbor for several weeks.

Steamer Clyde will be due Monday afternoon from the Tennessee.

IS HE MURDERER OF SPEICKERT?

Negro Captured at Mounds is Believed to be.

Placed in Mound City Jail and Taken to Mounds Yesterday Afternoon for Identification.

HIS WIFE GIVES HIM AWAY.

Calro, Ill., March 27.—It is now believed that the murderer of Charles Speickert, the Illinois Central employe, who was killed at Mounds several months ago, has been captured.

It is said that the negro arrested had been living in Mounds for some time. His wife, with whom he had a quarrel several days ago, told the authorities that her husband was the murderer of Speickert. The negro was arrested and taken to the Mound City Jail and yesterday afternoon taken back to Mounds for identification by the young man who received the pay check.

The Illinois Central detective force have been working on the case for some time and made one arrest some time ago of a negro who it was found later was not the guilty party.

The local police had heard nothing about the matter except that a negro had been captured at Mounds who was believed to be the murderer.

ARRIVALS — Kentucky from Brookport this morning with several cars of freight aboard for Tennessee river landings. She is receiving freight today at the wharfbort. Royal from Golconda this morning on time doing a good business. Regan from Caseyville this afternoon with a tow of coal for the West Kentucky Coal company. Organd and Charles D. Pierce, lashed together and pushing two show boats from Memphis last night and tied up below the incline. The two boats are being looked over today by the Golconda and Paducah Packet company and one of the boats probably will be purchased to take the place of the Royal. Dick Fowler from Calro tonight at 8 o'clock. T. H. Davis from Joppa yesterday afternoon.

NO NEED OF A VETERINARY.

"We run a Livery, Feed and Sale Stable, have a city transfer and handle hard and soft coal and consequently we need a good many horses," says Bedell Bros., of Mount Carmel, Ill. "We have used Sloan's Liniment and Veterinary Remedies for years and find they give perfect satisfaction. As long as Sloan's remedies are in our barn we do not need a veterinary surgeon. We are never without them and conscientiously recommend them to all horsemen."

Colby Bros., of the Mineral City Livery, Fort Dodge, Ia., write: "I have used Sloan's Colic Cure, Liniment and Fever and Distemper Remedy for the past ten years, and since I have been using them, I have never had a veterinary in my barn, and have not lost a horse from either colic or distemper, and will say that any man with a horse or horses who keeps Sloan's Liniment and Veterinary Remedies in his barn will never have occasion to call a veterinary."

Sloan's Treatise on the Horse, sent free to any horseman. Address Dr. Earl S. Sloan, Boston, Mass.

Our shoe repairing is in a class by itself. Best—quickest. We repair shoes so they're good for more service. Phone 102. We'll send and get your shoes and return them quickly.

Rudy & Sons

MASSACHUSETTS, MICHIGAN AND MISSOURI.

Ladies Representing These States Give Their Experience With Pe-ru-na.

Expressions of Gratitude for Dr. Hartman's Advice.

A Fine Cough Remedy.

Mrs. Ellen Nagle, 414 Fourth St., Green Bay, Wis., writes:

"I have often heard Peruna praised and it is more widely known here than any other medicine, but I never knew what a splendid medicine it really was until a few weeks ago when I caught a cold which settled all over me.

"The doctor wanted to prescribe, but I told him I was going to try Peruna, and sent for a bottle and tried it.

"I felt much better the next morning, and within five days I had not a trace of any lameness or any cough."

"I consider it the finest cough remedy."

Severe Throat Trouble.

Mrs. Margaret Gasaway, 212 E. 17th St., Kansas City, Mo., writes:

"I had catarrh in the worst form. Cancers of the throat had eaten both palate and tonsils out and had commenced to eat in the roof of my mouth. The best specialist had given me up.

"Then I commenced taking your medicine and will say four bottles completely cured me, but I still keep it in the house and take it whenever I take cold."

Although a cold is rarely directly fatal, yet it is a most productive source of incurable disease. Peruna operates directly to heal the inflamed mucous membranes.

Stomach and Bronchial Diseases.

Mrs. Emily Hoss Perry, poet and author of "Minnehaha Laughing Water," has been honored by her state and given a medal in recognition of her services. Wife of Commander Freeman G. Perry of U. S. Navy, U. S. Post 68 and well known in U. S. A. R. and society circles.

Home address 819 15th Ave., N. E., Minneapolis, Minn.

"I have tried Peruna and found it an excellent tonic and cure for catarrh. It is good for all catarrhal affections of the stomach and all diseases leading to consumption and bronchial troubles. I believe it to be one of the best medicines on the market, and thousands can testify to its cure with the same pleasure to the public that I can."

Gained Fifteen Pounds.

Mrs. Cordia Brown, R. F. D. 4, Rogersville, Tenn., writes that she can safely recommend Peruna to all who are weak and run down, that she gained fifteen pounds while taking Peruna.

All Run Down, No Appetite.

Mrs. Thomas Hoyer, R. F. D. 1, Montague, Mass., writes:

"As I doctored over a year without any relief and kept getting worse, I gave up all hope of ever getting well again.

"I was all run down, could eat scarcely anything. I was nervous and had such terrible pains in my right side and shoulder.

"I happened to see one of Dr. Hartman's booklets and wrote to him for advice and followed it as he said. I cannot express how grateful I feel for Dr. Hartman's kind advice and Peruna."

Used according to the directions, Peruna will often secure the family against colds, coughs, pneumonia, pleurisy and bronchitis.

noon with several empty barges. Tug Archbold from Brookport with cargoes of H. W. Butteroff from Nashville and way landings this afternoon. J. H. Richardson from Nashville and way landings this afternoon. George Cowling from Metropolis on her two regular trips today doing a good business.

DEPARTURES — Steamer Kentucky for Riverton, Ala., and all way landings this evening at 6 o'clock with a large cargo of freight and a number of passengers. She will return next Thursday night. Dick Fowler for Calro and way landings this morning on time with a large freight and passenger list. Harvester for St. Louis at 5 o'clock this morning with two barges of coal for the West Kentucky Coal company. Liberty for Elizabethtown at noon today after being tied up for a week for repairs. Capt. Harry Davis in command and Capt. Less Broadfoot at the wheel. Royal for Golconda this afternoon at 2 o'clock doing a fine business. George Cowling for Metropolis this morning at 11 and this afternoon at 4:30 o'clock doing a good business on both trips. T. H. Davis for Joppa with several barges of ties. Archbold to Brookport with a tow of ties. Richardson and Butteroff for Clarksville tonight and will return Monday night.

The steamer will go to Caseyville tomorrow, and the Egan Monday, after coal for the West Kentucky Coal company. The Mary Anderson will go to the mines Tuesday and will do harbor work for the West Kentucky Coal company. The Harvester will go south on her return from St. Louis with a big tow of West Kentucky coal.

Steamer J. B. Richardson of the Ryman line, and steamer H. W. Butteroff, of the Tyner line, are staying with each other like playmates, at

Mrs. MARGARET GASAWAY

Lost Sense of Smell.

Mrs. John Meyers, Mallet Creek, Ohio, writes: "I have been a sufferer from chronic catarrh for years and have thereby lost the sense of smell entirely. I had four of the best physicians in this vicinity without receiving any benefit whatever.

"Now I am once more a well woman. I find Peruna to be the best medicine in the world, as it has done me more good than any physician could have done for me. My friends say I look ten years younger. I tell them that Peruna did it. I can't thank you enough for your free advice."

The Nasal Mucous Membrane.

The nasal mucous membrane is one of the most important mucous surfaces of the body, since the nerves of smell are distributed to it, and the slightest impairment of it leads at once to a partial or complete loss of smell.

Catarrh is the most frequent source of derangement of this membrane. This membrane is continuous with the lining of the throat, ears and frontal sinuses, and nasal catarrh soon spreads to these parts unless cured promptly.

Peruna is the proper remedy in all stages of catarrh, and is often the only remedy necessary except some complications exist. But of course it takes more time to cure cases of long standing, especially in the atrophic stage.

A PRETTY COMBINATION.

The garment illustrated is particularly desirable for stout figures, as the corset cover and short petticoat are in one. At the back they are fitted with a single seam at the center, and at the front the fullness is kept in place by a band of heading through which ribbon is run. The skirt is sufficiently wide to be comfortable, but so arranged as to do away with any unnecessary material. The trimming employed should depend upon the material used for the garment. For everyday wear, Swiss or tulle embroidery will be most satisfactory.

3980. This pattern is cut in 9 sizes from 32 to 48 inches bust measure. To copy it for the average person, it requires 2 1/2 yards of material 36 inches wide, 3 1/2 yards wide edging, 3 1/2 yards of narrow edging.

Price, 10 cents.

These patterns will be supplied by The Sun for 10 cents each.

The public is cordially invited to attend all services and to make use of the reading room.

Church Notes.

The Ladies' Aid society of the East Baptist church will hold a devotional meeting Thursday afternoon at 2:30 o'clock at the pastor's study.

YOU DON'T HAVE TO WAIT. Every one makes you feel better. Lax-Fox keeps your whole insides right. Sold on the Money-Bank plan everywhere. Price 50c.

Radium Tubes.

The Royal British Radium Institute has accumulated the interest in radium, and a firm of medical and scientific instrument makers is busy supplying thin tubes of radium bromide for internal therapeutic work. As glass absorbs some of the emanations the radium bromide is inclosed in a small dome, about one-quarter inch in height by three-sixteenths of an inch in diameter, made of quartz. The tube is hermetically sealed to a rod, and can then be introduced into an incision or into the interior of the body. The quartz only holds a sixth of a grain of radium bromide, but is costs \$700.—New York Tribune.

IF IT'S ONLY A HEADACHE. Why Cornelson's Headache Liver Pills will cure that. 10 cents. Guaranteed by all druggists.

The Venesee essayist, Dr. Stephanie Weiss Eder, writes: "Women are more exacting than men in so far as they demand good husbands, who are much rarer than good wives sought by men."

There is no wisdom like frankness.—Beaconsfield.

Ely's Cream Balm
Is quickly absorbed. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts. at Drug-gists or by mail. In liberal form, 75 cents. Ely Brothers, 66 Warren Street, New York.

Interesting Debate.

"Resolved that he who plants a tree does more good for the world than he who builds a house," was the subject of an interesting debate yesterday afternoon by the students of the B. freshman class of the High school. The affirmative side secured the decision, and was defended by Pittman Harth, Armour Gardner

and Laura Lockwood. The negative was taken care of by Oscar Denton, John Hawley and Harry Johnston. The judges were: Misses Katherine Rock, Allie D. Foster and Julia Dabney.

BY THE CLOSE OF 1913

Taft Wants Canal Completed If Possible.

Washington, March 27.—President Taft today told Chief Engineer Goethals, of the Panama canal, that if the great waterway can be completed by the close of 1913 he wanted to see that feat accomplished.

Goethals has already declared that the canal will be completed in 1915 and he is understood to consider it impossible to save two years on the work, but he told the president he would put every force to work to expedite matters to carry out the president's orders.

DES MOINES LIKES COMMISSION RULE

First Year of Plan Proves Most Economical.

City Hall No Longer a Loading Place for Politicians, but Business House.

SOCIAL EVIL IS DRIVEN OUT.

Des Moines, Ia., March 27.—Des Moines' first year under the commission form of government ends next Wednesday, after twelve months of what everybody considers the most efficient and economical conduct of municipal affairs the city ever has experienced.

For the second time in its history Des Moines has lived within its income. Starting under the handicap of a \$180,000 debt left by former administrations, the commission will end the year without exceeding a single appropriation, and with money left over in several of the funds. Old debts were paid off by a bond issue, but none of the money derived from the sale of bonds was used in paying current expenses.

Not only has the city been managed more economically than ever before, but more efficient service has been rendered in every department. The streets have been kept clean, paving has been laid according to contract, civil service has been installed in all departments, the efficacy of the police department has been increased, a new system of accounting has been installed—in fact, the entire municipal government has been placed on a business basis.

Chicago Traction Plan Favored. Perhaps the most valuable achievements of the new administration have been its dealing with public service corporations. By an agreement with the electric light company the rates on street lights were reduced from \$75 to \$65 a year, under an all night schedule, instead of a moonlight schedule.

An ordinance was passed reducing the water rates from 30 to 20 cents per thousand gallons, but the company enjoined the new rates from going into effect. President Payson, of the water company is in the city now from Portland, Me., with the view of reaching an agreement with the city.

Negotiations were well under way with the street car company for the adoption of the Chicago profit sharing plan and it is probable that the city soon will have an interest in the street car company.

Rates on gas street lights, which were arbitrarily raised by the former council, have been reduced to the old figure by the present council.

One of the first things the new council did was to require banks to pay interest on city funds. Since that time all the city's cash has been drawing interest of from 2 to 4 per cent, amounting to several hundred dollars a year.

Social Evils Are Eliminated.

The most spectacular of the reforms instituted under the new administration was the wiping out of the "red light district" by Councilman J. L. Hamery, who is head of the department of public safety. He issued an order notifying keepers of immoral houses that they could not operate in Des Moines after September 15. On that day every such house was vacated.

Slot machines have been driven out by Supt. Hamery, and it is generally conceded that Des Moines is one of the most orderly towns in the country. Saloons are required to live strictly up to the letter of the state law.

Along with suppressing disreputable houses the city has broken up the "bond shark" business. Indeed, it was the practices of the "bond sharks" which led to the suppression of the "red light district." The bondsmen had the women of the underworld at their mercy. Finally the "sharks" grew so bold that they had the women arrested at frequent intervals in order to secure the commission for going on their bonds.

Supt. Hamery decided that the two evils were inseparable. As a result professional bondsmen are now doing only legitimate business in the police court.

Twenty Year Quarrel Ended. Among the accomplishments of the new administration might be mentioned the agreement with the railroads for the building of the viaduct, over which the city and the roads have been quarrelling for twenty years. Plans have been accepted and work on the structure soon will begin.

The five members of the commission receive combined salaries of \$15,000 a year, and it is estimated that enough money has been saved by stopping small wastes, due to loose business methods, to make up that sum. A business system has been introduced in all departments and the city hall has been changed from a loading place for politicians to a place resembling the offices of a large business concern. An entirely new spirit pervades it.

John MacVicar, member of the council and head of the department of streets and public improvements, is given much of credit for the successful launching of the new form of government. He has served two terms as mayor, is secretary of the League of American Municipalities, and a lifelong student of municipal affairs.

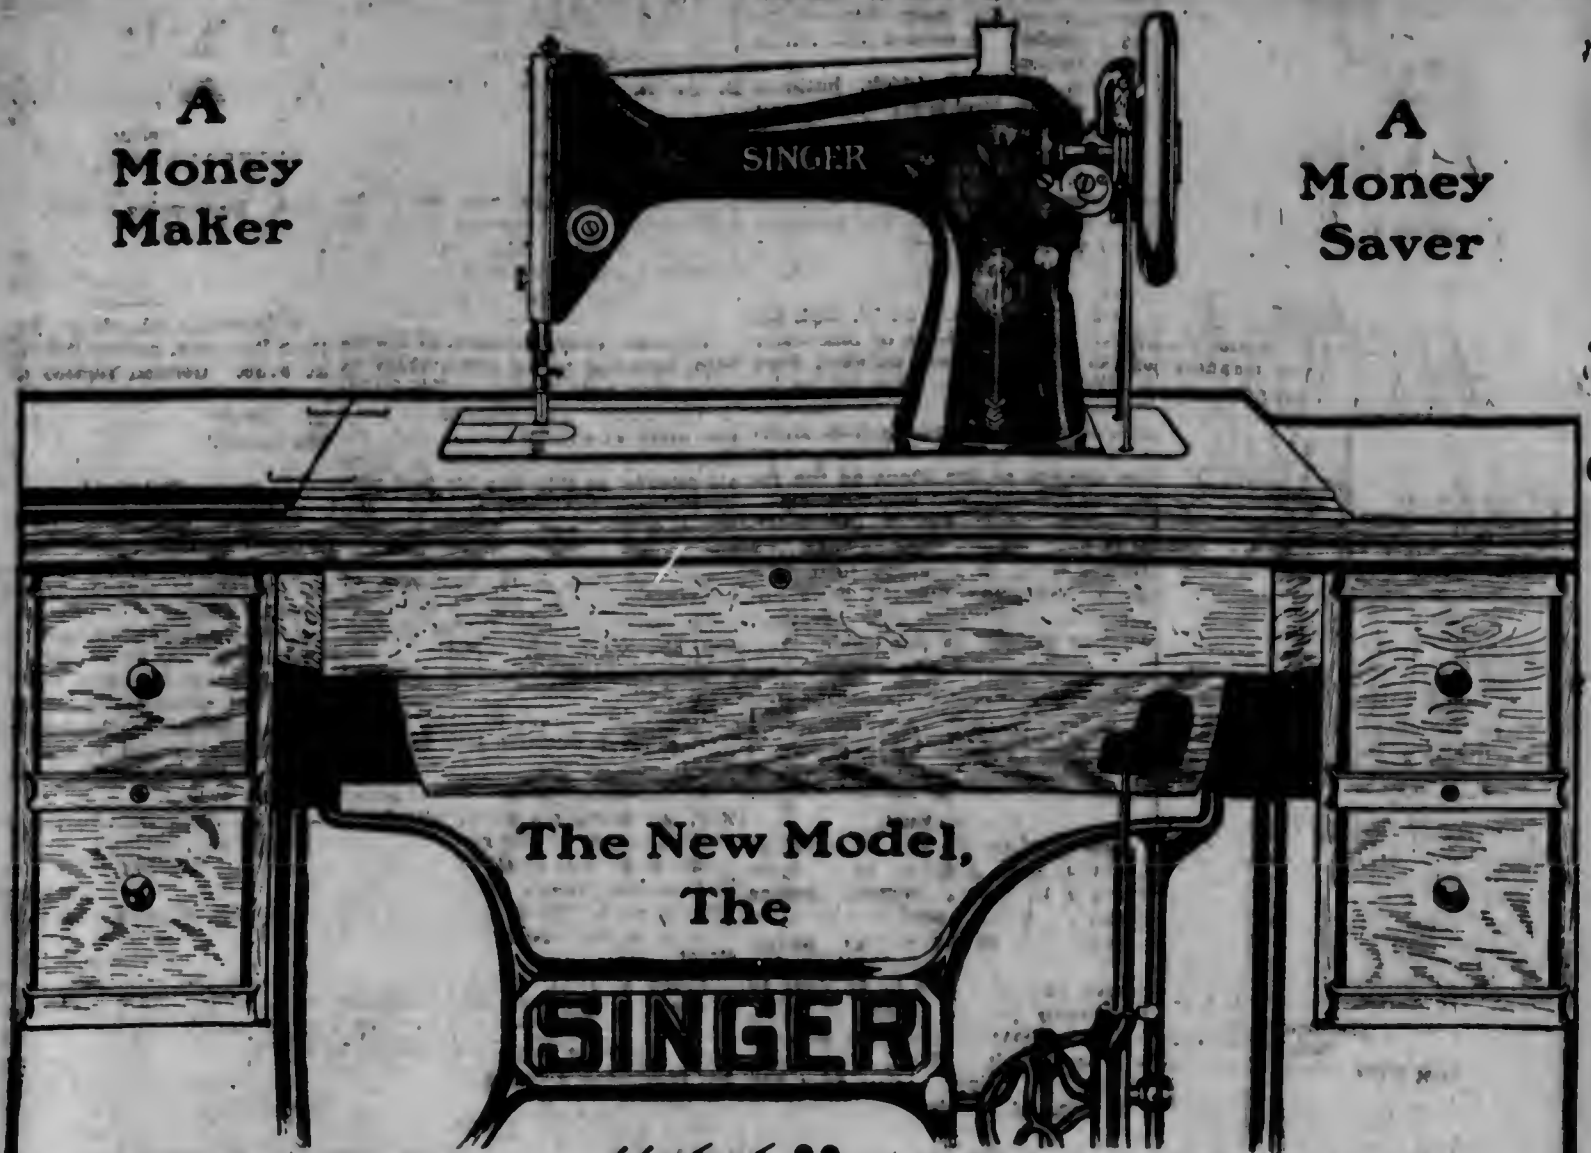

Opposition to the commission form of government is rapidly melting away in Des Moines. The people generally are satisfied with the results achieved so far and prefer a business management of municipal affairs to the old haphazard system of divided responsibility and careless issuance of transacting public business.

So far politics has not entered into the conduct of city affairs, and the prediction that the members of the commission would use their extraordinary powers to build up a powerful political machine has not been fulfilled.

Preliminary work for the construction of India's new steel plant, near Kahmali station, is making good headway. The plant on the Ram-rana manganese property has proved to be of the highest value. A forty-five mile piece of railway is already under construction.

GIVE THE FACTS.

Vice President of Illinois Central Railroad Says.

Jackson, Tenn., March 27.—"I have found that the best policy to pursue with newspapers is to give them the facts in reference to business deals or works. It is better that accurate publicity be given these things than to try to withhold the facts and have erroneous stories published in reference to same," said I. G. Rawn, vice president of the Illinois Central railroad, who was in the city today. Chester Bond, the attorney for the company in this city, who was present, said that he agreed with Mr. Rawn's statement.

IF YOU COULD SEE THE WHEAT

That goes into our Momaja Flour, you wouldn't be surprised at the fine bread it makes. Only the finest selected grain is used, and perfect milling turns it into perfect flour. Ask your grocer for a sack the next time you order flour. You'll insist on getting it every time afterwards, once you have given it a trial.

A Badge of Honesty

Is printed on the outer wrapper of every bottle of

Dr. Pierce's Favorite Prescription

and it is the only medicine for woman's peculiar ailments, sold by druggists, the makers of which feel fully warranted in thus taking the afflicted into their full confidence.

The more known about the composition of Dr. Pierce's Favorite Prescription, the more confidently will invalid women rely upon it to cure their peculiar weaknesses and derangements. There's no secrecy about its make-up—no deceptive inducements held out to the afflicted. It's simply a good, honest, square-deal medicine with no alcohol, or injurious, habit-forming drugs in its composition. Made wholly from roots. It can do no harm in any condition of woman's organism.

Devised and put up by a physician of vast experience in the treatment of woman's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" is known everywhere as the standard remedy for diseases of women and has been so regarded for the past 40 years and more. Accept no secret nostrum in place of "Favorite Prescription"—a medicine of KNOWN COMPOSITION, with a record of 40 years of cures behind it.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages cloth-bound.

World's Dispensary Medical Association, Proprietors, R. V. Pierce, M. D., President, Buffalo, N. Y.

HIGH SCHOOL LADS DEFEAT C. C. & W.

Hard Practice Puts Boys in Trim for Victory.

Basketball Season Ends in Most Thrilling Match of the Entire Season.

MEETING ON MONDAY NIGHT

TEAMS.	W.	L.	PTS.
C. C. & W.	11	1	917
D. A. D.	8	4	607
High School	7	5	581
Elks	7	5	584
L. & P.	3	7	300
K. C.	1	9	100

With the score a tie the second in the game between the High school and the Chess, Checker and Whist club. Such a large crowd was in the

Whist club and the High school teams last night in the final game of the season of the city league. It was agreed to play the tie-off, the first team scoring a point to win. Excitement was intense, but Evans, for High school, succeeded in throwing a basket and the score stood 19 to 17 in favor of the High school. It was the first defeat of the Chess team this season, and after the game the enthusiasm for a basketball game in Paducah was unparalleled. The members of the victorious team were boosted on shoulders and were carried around the gymnasium, while the crowd cheered.

The second game was between the D. A. D. team and the Elks, and the game was a victory for the D. A. D. lads by a score of 19 to 14. It was a hard fought game, and the players deserve credit, as it decided what team should occupy second place in the percentage column. At the end of the first half the score stood 5 to 4 in favor of the D. A. D. team, but in the second half the Elks lost out, and the D. A. D. boys walked ahead. The game was fast and hard played.

The real interest of the game was in the game between the High school and the Chess, Checker and Whist club. Such a large crowd was in the

building that the spectators crowded on to the floor, and admittance was refused to over 50 people because of the crowded condition. The C. C. and W. team had a perfect record this year, and at the close of the season, which was last night, the High school team, composed of light but fast players, was picked to try and throw the mighty players from the perfect percentage. The game was hard played, and what was lost in height and weight was overcome by the High school boys in speed and pluck.

The game started with the crowd on its feet, and the C. C. and W. team scored a field goal in less than a minute after the whistle had blown. The High school scored, and the two teams were bunched most of the half, but near the end of the second half the Chess players had a spurt, and increased their lead which was 14 to 5 at the end of the first half.

With the beginning of the second half the struggle began in earnest, for the High school came back with a determination to win that was surprising. Slowly the score crawled up, and about the middle of the half a tie was registered—12 to 12. Yells and noise were all the go, but a few minutes later the score stood 16 to 13 in favor of the C. C. and W. players. The game was desperate and the ball was fought over, while the spectators shrieked. High school walked up, and a minute before the half ended the score had been tied, 17 to 17.

It was agreed to play the tie-off, and the first team scoring a field goal to win. Play began with the players playing faster and exerting themselves more. The ball was around the High school basket most of the minute, and time after time the ball rolled around the rim, but obstinately refused to fall in and permit the C. C. and W. team to win. Finally some High school player secured the ball, and shot it from the hoop to Prof. Evans, who was playing back. Quickly he seized the ball and threw it before he was covered by a guard. The ball went up and then dropped through the basket, making a field

goal, and the score stood 19 to 17 in favor of the High school.

Terrell was a star for the High school, and he guarded, Sights, who is a star player for the C. C. and W., to a standstill, besides passing the ball to his team mates many times. Evans scored six goals, and played hard, while Sills guarded well, and tossed three foul goals. Browning and King played hard games and assisted in the victory. For the C. C. and W. team Puryear scored three field goals and one foul, while Sights tossed two baskets. Fisher at center played a star game and tossed the ball in the basket twice, and St. John played hard. Singleton was the star for the Chess team.

Shelton center of the D. A. D. team, injured his right eye in the first game, and was compelled to retire. The eye ball was injured by a player thrusting his finger into it. The injury is painful, but it is hoped not serious.

The teams lined up: High school—King, c; Browning and Evans, f; Terrell and Sills, g. C. C. and W.—R. Fisher, c; Sights and Puryear, f; St. John and Singleton, g. D. A. D.—Shelton and W. Fisher, c; McGinnis and Bagby, f; Harth and Bagby, g. Elks—Hughes and Goodman, c; Goodman, Sutton and Hatfield, f; H. Henneberger and Warren, g. The officials of the first game were: Lyndon, referee; Daly, umpire, and in

the second game: W. Henneberger, referee; Daly, umpire; Robertson, scorekeeper, and Hassman, timekeeper.

Meeting Monday.

There will be a meeting of the captains and the officers of the league at the gym Monday night to consider the disposition of funds.

DeWitt's Kidney & Bladder Pills are unequaled for weak kidneys, backache, inflammation of the bladder and all urinary disorders. They are antiseptic. Sold by all druggists.

It is likely that the height of the new buildings in Mesena will be limited to about 23 feet.

There are ten women among the fifty commissioners that the government of Mexico has sent out for the purpose of studying the best methods of education in the different countries.

DeWitt's Little Early Risers are small pills, easy, gentle and certain, and are sold by all druggists.

NOTICE
